

# Vermont Native Plant Sources

A project of the Vermont Pollinator Working Group, with funding from the Gund Institute's Apis Fund.

This list is intended for informational purposes only and no endorsement or approval is intended. The goal is to help connect growers and retailers of native plants with buyers, either for residential or restoration applications.

Recommendations for plants to choose can be found here: <https://val.vtecostudies.org/projects/vtbees/pollinator-habitat/>

To add nurseries to the list or for corrections, please email [shardy@vtecostudies.org](mailto:shardy@vtecostudies.org).

\*indicates nurseries exclusively selling "native" plants.
